

## THREAD LIFT

A thread lift is a modern aesthetic procedure designed to firm and rejuvenate the skin using a variety of threads that stimulate collagen production and enhance skin elasticity. The procedures are minimally invasive and deliver immediate results, helping to achieve firmer skin.

A thread lift is an effective and modern solution for restoring skin elasticity and a youthful appearance. The procedure is quick, minimally invasive and provides immediate visible results.

### MESO THREADS

Meso threads are fine polymer threads inserted under the skin to lift and contour the face. They are primarily used to smooth wrinkles and enhance skin elasticity.

**Mono thread** 1 piece / 10 €  
A single thread that is suitable for treating small areas.

**Mono screw / Tornado** 1 piece / 15 €  
A spiral thread that provides a more intense lifting effect and stimulates collagen production.

**Twin** 1 piece / 15 €  
A double-sided thread that is used to tighten skin and restore lost volume.

**Lip and perioral contour** from 100 €  
Threads designed to smooth and define the lips and the area around the mouth.

**Eye area** from 200 €  
Threads designed to reduce fine lines and signs of fatigue in the under-eye area.

**Facial oval** from 300 € (20 pcs)  
Threads designed to lift and tighten the facial oval, restoring a more youthful appearance.

### COG THREADS

COG threads are special high-tech threads that provide long-lasting lifting and skin texture improvement.

**Facelift (with MINT COG threads)**  
750 € (8 pcs)  
1,000 € (12 pcs)  
1,250 € (16 pcs)

A number of threads are used to achieve a full facelift and enhance skin texture.

**Foxeye** 450 € (4 pcs)  
600 € (6 pcs)

Threads designed to lift and open the eye area, creating a more youthful appearance.

**Neck lift** 450 € (4 pcs)  
600 € (6 pcs)

Threads that tighten and firm the neck skin, resulting in a smoother, more toned appearance.
